

EcoTec Hydroseeding
will get your new lawn
off to a great start

EcoTec hydroseeding contains high-grade lawn seed and balanced fertiliser in a bio-degradable mulch that is sprayed on to cover the soil and provide a protected and fertile environment for rapid seed germination and growth.

EcoTec hydroseeding provides:

- Fast, even coverage
- Rapid establishment
- Weed suppression
- Bird resistance
- Rain protection
- Immediate dust control
- Less mud & dirt to come indoors

**Result – a great looking lawn
that adds value and utility to your home.**

TEAM UP WITH YOUR NEIGHBOURS
10% discount for two or more lawns*

* In same neighbourhood, hydroseeded on same day with same seed mix.

EcoTec are the Hydroseeding Specialists!
